Education:

**San Francisco State University,
San Francisco, CA**

Undergraduate,

Major in **Computer Science**

Minor in **Design**

Graduate: May 2025

GPA: **3.8**

“

— I'm willing to learn new things.

”

Skills

React, SASS, HTML, CSS, JavaScript, Figma

VOLUNTEER EXPERIENCE

SFSU CSC210 Tutor Spring 2023

To help students do their coding homework and help them find bugs.

Course Project

CSC648: Software Engineering - Travel Wise

This is a group project. Six people worked together to complete the front and back ends of this website. My role is front-end leader, and UX designer. Find the user's pain point, make personas, user stories, and complete storyboard. After analyzing, we sure what functions we need. And using react, js, css and sass to build the front-end.

CSC680: App Dev For Mobile Device - PetpetGo

This is a IOS group project. In this project, we use Swift to develop this ios app which can help people adopt pets. And I design the whole UI interface. And make Lo-fi and Hi-fi prototype.

CSC413: Software Development - Tank Game

Using Java to create a tank game. Developed game features including a start/end screen, 2-player mode, tank movement and rotation, split screen, mini-map, health bars, lives count, power-ups, breakable and unbreakable walls, bullet mechanics, animations, and sound effects.

Personal Project

Furniture website - FurniSimple

Design a furniture website. And finished Lo-fi and Hi-fi prototype.
